Technical Skills

Languages and Databases : HTML, CSS, JavaScript, React.js, Node.js ,Express.js, Next.js,Mongodb

Developer Tools : VS Code, Git, GitHub, Chrome DevTools, Postman, Vite, Redux Toolkit

Frameworks: Bootstrap, Tailwind CSS, Material Ui

Additional Skills : REST API Integration, JWT Authentication, Responsive Web Design, Agile Methodology

Experience

PR-Webstock, Nakhara, Bhubaneswar

MERN Stack Developer | Jan 2026 – Present

As a **MERN Stack Developer**, I architect and manage **full-stack web applications** built with **React.js, Node.js, Express.js**, and **MongoDB**. I design responsive, **high-performance** user interfaces utilizing modern **JavaScript (ES6+)**, **HTML5, CSS3, Tailwind CSS**, and **Bootstrap**. My **core backend responsibilities** include **engineering** and **integrating RESTful APIs**, **implementing CRUD operations**, managing **database integration**, and setting up secure user **authentication**. I optimize **performance** and **system reliability** by connecting **frontend** applications with **backend** services, systematically **debugging** cross-stack issues, and leveraging **developer tools** like **Git, GitHub, Postman**, and **Chrome DevTools** for version control and **API testing**.

Oasis Infobyte

Web Development Intern | Sep 2025 – Nov 2025

During **my virtual web development internship**, I built responsive, **mobile-first** web applications using **HTML5, CSS3, JavaScript, React.js, Tailwind CSS**, and **Bootstrap**. I integrated dynamic **REST APIs**, improved website performance through **optimized** code, and collaborated in an **Agile environment** using **Git and GitHub** via code reviews and daily stand-ups.

Projects

Social Networking App:

March, 2025

Tech Stack: *React.js • Node.js • Express.js • MongoDB • Tailwind CSS • JWT Authentication*

Developed a mobile-first social networking platform allowing users to create profiles, connect with others, and exchange messages in real time.

- Built frontend interfaces using **React.js** focusing on responsive design and smooth user experience.
- Integrated **authentication** systems (**signup/login**) using **JWT tokens** and secure **password hashing**.
- Designed **backend APIs** with **Node.js** and **Express.js**, handling **user data, friend requests and posts**
- Used **MongoDB** for storing **user profiles, Connection request, and interactions**.

Food Ordering App:

Nov,2024

Tech Stack: *React.js • Redux • React Router • Tailwind CSS • Framer Motion*

Developed a fully responsive food ordering web application using **React.js** for the frontend and **Redux** for global state management.

- Implemented features like **browsing restaurants, viewing detailed menus, adding/removing** items from the cart, and managing orders.
- **Used Redux** to handle **cart state, user authentication state, and order across different components**.
- Built **dynamic routing** between pages (**Home, Restaurant, Cart, Checkout**) using **React Router**.
- Designed a clean, mobile-first UI using **Tailwind CSS**.
- Structured the app using reusable **React components** and modular folder architecture.

Education

Gita Autonomous College

Nov 2022 – Aug 2024

Master of Computer Application

Bhubaneswar, Odisha

Sri Ganesh Resident College

April 2018 – July 2021

Bachelor of Science

Astaranga, Odisha

Mahatma Gandhi Junior College

May 2016 – March 2018

+2 Science

Astaranga, Odisha
